

This roadmap is an 'MIT student optimized' guide for structuring your schedule. Course 15 always encourages you to choose courses based upon interest, not by whichever checks off the most boxes. Please read the footnotes for additional options and come see us in the Program Office to discuss.

**Notes:**

<sup>1</sup> Upon request Course 18 will accept either 15.0791 or 15.075 but not both as a Math restricted elective.

<sup>2</sup>15.075 satisfies the Institute LAB requirement. 18.650 does not fulfill the LAB requirement. Students who take 18.650 will need to take an Institute LAB course.

<sup>3</sup>18.062J can count as a 15-2 Restricted Elective and a Course 18 Math Elective (as alternatives, 18.615 can count as a 15-2 Restricted Elective and can count as a Course 18 Math Elective or 14.12 or 14.15J can count as a 15-2 Restricted Elective and can count toward the HASS requirement).

<sup>4</sup>18.06 or 18.700 can count as a 15-2 Restricted Elective and is required for Course 18.

<sup>5</sup>Plan your Course 18 Math Electives accordingly to include the required [Math CI-M subjects](#).

<sup>7</sup> Depending on double counting and elective choice, 9-21 additional units may be needed to accrue the 180 units beyond GIRs.
