

This roadmap is an 'MIT student optimized' guide for structuring your schedule. Course 15 always encourages you to choose courses based upon interest, not by whichever checks off the most boxes. Please read the footnotes for additional options and come see us in the Program Office to discuss.

Notes:

¹Students can choose to take both [15.417](#) and [15.418](#). Students who take [15.401](#) (rather than [15.417](#)) must then take [15.418](#). Students who take [15.402](#) (rather than [15.418](#)) must take [15.417](#). Majors who take only one of [15.417](#) and [15.418](#), must take [15.276](#), [15.279](#), [15.301](#), or [15.312](#) to complete their second CI-M.

²Upon request [Course 18](#) will accept either [15.0791](#) or [15.075](#) but not both as a [Course 18](#) restricted elective.

³Plan your [Course 18](#) Electives accordingly to include the required [Math CI-M subjects](#).

⁴Please note that students can use no more than one subject in their primary major department to fulfill the REST requirement. [Course 18 primary majors](#) who take [18.600](#) rather than [15.0791](#) will need another non-[Course 18](#) REST. [15.053](#) ([15-3 Restricted Elective](#)) can be used to fulfill the REST requirement.

⁵3-9 additional units will be needed to accrue the 180 units beyond GIRs.
