

This roadmap is an 'MIT student optimized' guide for structuring your schedule. Course 15 always encourages you to choose courses based upon interest, not by whichever checks off the most boxes. Please read the footnotes for additional options and come see us in the Program Office to discuss.

**Notes:**

<sup>1</sup>Students can choose to take both 15.417 and 15.418. Students who take 15.401 (rather than 15.417) must then take 15.418. Students who take 15.402 (rather than 15.418) must take 15.417. Majors who take only one of 15.417 and 15.418, must take 15.276, 15.279, 15.301, or 15.312 to complete their second CI-M.

<sup>2</sup>Upon request Course 18 will accept either 15.0791 or 15.075 but not both as a Course 18 restricted elective.

<sup>3</sup>Plan your Course 18 Electives accordingly to include the required [Math CI-M subjects](#).

<sup>4</sup>Please note that students can use no more than one subject in their primary major department to fulfill the REST requirement. Course 18C primary majors who take 18.600 rather than 15.0791 will need another non-Course 18 REST. 15.053 (15-3 Restricted Elective) can be used to fulfill the REST requirement.
