

15.000, EXPLORATIONS IN MANAGEMENT

Spring 2019. Monday 7-9 pm. 32-124. 3 units. P/D/F grading.

15.000 is a 3-unit course designed for first year undergraduates so that they can learn about the Course 15 (Sloan) majors as well as learn about the disciplines we teach at Sloan.

A typical session will be:

- Students get their dinners and get settled (dinner provided at each session)
- Faculty speaker for that session describes:
 - how her/his academic discipline is used in practice
 - the types of research questions important to the faculty and others in that academic discipline
 - interactive presentation by the faculty to teach a key/interesting concept applicable to their area
- After the faculty presentation, an alum or current Course 15 student discusses careers in the area of the session's topic

Faculty Speaker Schedule:
