Educational Services
eseidman@mit.edu
WHY DO WE BID?

Some courses fill to capacity

- Sloan courses cap the class size to maintain classroom dynamics
- Sloan classrooms are at a premium! Relocating classes after the term begins is not feasible

Bidding allows students to:

- Rank their top choices
- Indicate how much they want a particular class over another
BID SCHEDULE

Students bid in the Fall and Spring for Sloan classes

- December 1\textsuperscript{st} – Spring term bidding begins
- May 1\textsuperscript{st} – Fall term bidding begins

Course bidding is broken up into several rounds.

- Round I
- Round II
- Add/Drop
- Waitlist

Current bid schedule available on Sloanbid
Course bidding is based on **Priority, then Points bid**

- A student of priority ‘1’ will always get a seat over a student of priority ‘2’

- Between the same priority, the higher bid will be successful

- Between same priority and bid amount, the seat will be allocated randomly
MECHANICS OF BIDDING

Everyone receives 1000 points to spend:

- Minimum Bid: 1 point
- Maximum Bid: 1000 points

You can modify your bids and enrollment while the round is open

All bids are resolved after the close of each round

Add/Drop is the only time-sensitive round
MECHANICS OF BIDDING

- Plan ahead! The bid system can create a conflicting schedule
  - Do not bid for courses that conflict with your Core courses
- Note the number of seats filled vs. capacity \((25/100)\)
- Some courses are restricted to specific programs.
- Bid early in the round to allow time for questions

See Sloan Course Notes
ACCESSING SLOANBID

1. Go to Sloanbid.mit.edu
2. Click “Bid for Courses”
3. Use your 9-digit MIT ID # as your username and password
4. Find your course
5. Enter your bid amount in the box next to the course
6. Click the “bid” button to confirm your bid
**MIT Sloan Course Bidding**

1. Use your 9-digit MIT ID # as login and password.
2. Find your course.
3. Enter bid amount.
4. Click "bid".

MECHANICS OF BIDDING

Sectioned Classes

- There are two options when bidding on a sectioned class:
  - ‘Any Section’
  - ‘No Alternate’

- The bid system resolves each section individually, based upon the bids placed on THAT section.

- If a section does not fill, the system will then look for unsuccessful bids from the other section who chose the ‘Any Section’ option to fill remaining seats.

- ‘Any section’ bid keeps the most options open.
Results become available on Sloanbid.mit.edu at the start of the next round

Click ‘Current bids and bid results’ on Sloanbid to view results

Check results carefully!
- You may not have received your first choice
- The bid system will allow you to create a conflicting schedule
ROUND II REFUNDS

If you win seat in Round I

- You will be charged the minimum bid amount to gain a seat in the class:
  - Your bid – Minimum bid = Round II Refund
  - 500 points (your bid) – 200 points (minimum bid) = 300 point refund

If you did not win a seat in Round I

- Your points bid for that class will be refunded for use in Round II
Use the Add/Drop round to adjust your Sloan course schedule

- You may **DROP** electives won earlier during the bid process.

- You may **ADD** electives listed as “OPEN”, no bid points necessary.

- You will not be able to add courses that closed (filled) or application-only electives.

- A list of closed Sloan classes will be posted on Sloanbid at the end of Round II.
How do I join the waitlist for a closed (full) class?

Students bid for waitlist positions in closed courses during the waitlist round

1. A list of closed Sloan classes will be posted on Sloanbid
2. Your bid points are reset to 1000 for waitlist bidding
3. Bid on as many waitlist positions as you want, no limit
4. Waitlist use is at faculty discretion
SECTION SWAPPING

Bid for the section you want to attend during the term.

If you wish to swap sections, **DO NOT** drop the course!

- To change your section assignment, contact the instructor or TA at the start of term to request a swap

- Swaps are generally managed on a first-come/first-served basis

- Classes *usually* honor section swaps first before accepting new students from the waitlist.
FALL REGISTRATION

- Enrollments from Sloan bidding will be automatically populated on your Fall registration
  - See https://registration.mit.edu

- Further schedule adjustments, including non-Sloan MIT and cross-registered Harvard courses, are managed via the online add/drop system after the term begins.
  - MIT Online Add/Drop System
  - Fall 2017 Add/Drop Deadlines
  - Harvard Cross-Registration Deadlines
